

SimpleQR

WHAT IS SIMPLEQR

SimpleQR is a versatile and user-friendly QR code tool designed to streamline link management and sharing. It allows individuals and businesses to create customized QR codes that link to multiple online destinations (websites, portfolios, social media profiles, etc.). SimpleQR is ideal for students, influencers, businesses, and anyone seeking an easy way to manage and share their online presence.

WHY SIMPLEQR

- **In the Digital Age:** Simplify how you share your online presence.
- **User-Friendly:** Easy-to-use interface that doesn't require technical expertise.
- **Customization:** Fully customizable QR codes that align with your brand or personal style.
- **Efficiency:** Consolidate multiple links into a single QR code for easy access.
- **Increased Visibility:** Boost engagement and visibility for businesses, influencers, and students.

KEY FEATURES

MULTI-LINK BUTTONS

Create up to 8 customizable buttons for various links.

PERSONALIZATION OPTIONS

Customize each button with unique icons, colors, and labels.

QUICK ACCESS

Instantly direct users to specific links such as portfolios, social media profiles, and more.

MOBILE FRIENDLY

Easily shareable and scanable on mobile devices.

HOW IT WORKS

1. **Create a New Portal**

- Navigate to the SimpleQR Portal Builder.
- Add elements like headers, buttons (up to 8), and design elements (custom colors, borders, and background).
- Preview your portal to ensure it looks as intended.

2. **Save and Publish**

- Register an account and save your portal.
- Once satisfied, click Publish to confirm your design.
- Generate QR Code: After publishing, generate your QR code to share.

3. **Editing and Upgrading**

- Make any changes by editing your portal in the builder.
- If upgrading, select a subscription plan to unlock more features and save edits.

BENEFITS FOR VARIOUS USERS

For Students:

- Showcase portfolios on resumes or presentations.
- Easy to share documents and project links with a simple scan.

For Influencers:

- Create a personal brand presence with links to social media profiles and websites.
- Shareable on business cards and promotional materials.

For Businesses:

- Efficient marketing tool to promote services and share promo links via business cards or brochures.
- Enhance customer interaction and engagement through easy access to key online resources.
